SUBJECT INDEX TO VOLUME 118

Abscess
  periprostatic (CPC), 507
Acetohexamide
  oral hypoglycemia agent (drug letter), 152
Acid base balance
  in Asiatic cholera (Carpenter et al.), 197
Acidosis, metabolic
  base-deficit in Asiatic cholera (Carpenter et al.), 174, 197
Adoptive transfer
  quantitative studies of antibody production in the cyclophosphamide treated mouse (Santos & Owens), 109, 127
Adrenogenital syndrome
  IQ, genetics and accelerated growth (Money & Lewis), 365
Aflatoxins
  insidious fungal disease (Heffernan & Asper), 10
Agar diffusion techniques
  longitudinal study of serum immunoglobulins in newborn premature infants (Washburn), 40
Anatomical back
  spondylolisthesis (King), 2
Aneurysm
  mesenteric artery (CPC), 423
Antibiotic therapy
  complicated by aspergillosis (Heffernan & Asper), 10
  in Asiatic cholera (Carpenter et al.), 174, 193
Antibody
  formation by mouse spleen cells after transplantation (Santos & Owens), 194
  production by various murine tissues after transplantation (Santos & Owens), 127
Anticholinergic response
  to motility of esophagus (Kantrowitz et al.), 476
Aorta
  dissecting aneurysm (CPC), 155
  cystic medionecrosis (CPC), 155
Arteritis
  in lupus erythematosus (CPC), 423
Aspergillosis
  antibiotic therapy complicated by (Heffernan & Asper), 10
  cytotoxic drug therapy complicated by (Heffernan & Asper), 10
  pulmonary disease due to (Heffernan & Asper), 10
  steroid therapy complicated by (Heffernan & Asper), 10
Atropine response
  to esophageal motility (Kantrowitz et al.), 476
Auditory defects
  in rubella, maternal (Hardy et al.), 97
Atomic absorption
  and copper (Cheek et al.), 337
  and manganese (Cheek et al.), 337
  and zinc (Cheek et al.), 337

Back
  pain (Singewald), 492
Backache
  experiences with spondylolisthesis (King), 2
  sacro-iliac lipomata (Singewald), 492
Bell's palsy
  study of facial nucleus (Altman), 265
Blood groups
  in French Canadians (Laberge), 52
Cardiac defects
  in rubella, maternal (Hardy et al.), 97
Cardiovascular, congenital
  malformations associated with tracheo-esophageal fistula (Mehrizi et al.), 246
Cells
  immunologically competent (Santos & Owens), 109
  mouse spleen (Santos & Owens), 109
  quantitative studies of antibody production by (Santos & Owens), 109
Cephalothin
  penicillin-like antibiotic (drug letter), 69
  allergic reaction in patient with penicillin hypersensitivity (drug letter), 351
Children
  ulcers in (Gieske & Storey), 499
Chlorpropamide
  oral hypoglycemia agent (drug letter), 152
Cholera, Asiatic
  acid base balance (Carpenter et al.), 197
  antibiotic treatment (Carpenter et al.), 174, 193
  clinical studies in (Carpenter et al.), 165, 174, 197, 216, 230, 243

comparison with shock-producing non-cholera diarrhea (Carpenter et al.), 230
electrocardiographic changes (Carpenter et al.), 197
intravenous fluid therapy (Carpenter et al.), 174, 197
renal failure in inadequately treated cholera (Carpenter et al.), 165, 174
Chromatography
thin-layer (Boitnott & Margolis), 402
Chromosomal aberration (Lee et al.), 374
Chronic rubella virus infection
manifestations of in infants (Hardy et al.), 85, 97
City planning (Heckscher), 326
Clinical observations
in Asiatic cholera (Carpenter et al.), 165, 243
Clinicopathologic Conferences (CPC), 73, 155, 251, 354, 423, 507
Cloxacillin
choice and controversy (drug letter), 69
Colon, diseases of
electron microscopy in (Gonzalez-Licea & Yardley), 444
shigellosis (Gonzalez-Licea & Yardley), 444
ulcerative colitis (Gonzalez-Licea & Yardley), 444
Congenital malformations
following rubella, maternal (Monif et al.), 85
Consanguinity
in the French Canadians (Laberge), 52
Copper
muscle cell growth (Cheek et al.), 337
Cytotoxic drug therapy
complicated by aspergillosis (Heffernan & Asper), 10

D_1 trisomy (Lee et al.), 374
Diabetes mellitus
working classification (drug letter), 151
Diarrhea
clinical and biochemical comparison of cholera with severe non-cholera (Carpenter et al.), 230
Development, delayed (Lee et al.), 374
Drug letters, 69, 151, 349, 352
Duchenne muscular dystrophy
electromyographic studies (Emery et al.), 439
Duodenal ulcer (Gieske & Storey), 499
Dystrophy
electromyographic studies in carriers of Duchenne muscular dystrophy (Emery et al.), 439

Editorial, 1
E_1 trisomy (Scarpa & Borgaonkar), 395
E_3 (17–18) trisomy
with cardiac anomaly (Scarpa and Borgaonkar), 395
Electromyography
carriers of muscular dystrophy (Emery et al.), 439
Electrodiographic changes
in Asiatic cholera (Carpenter et al.), 197
Electron microscopy
colonic diseases (Gonzalez-Licea & Yardley), 444
study of fate of neurosecretory product in monkey (Bodian), 282
shigellosis (Gonzalez-Licea & Yardley), 444
ulcerative colitis (Gonzalez-Licea & Yardley), 444
Embryonal cancer
treatment with mithramycin (Koons et al.), 462
Epidemiology
studies in congenital rubella (Monif et al.), 85
Esophagus
malformations associated with tracheo-esophageal fistula (Mehrizi et al.), 246
Esterases
soluble, in human tissues (Blanco & Zinkham), 27

Fistula
tracheoesophageal (Mehrizi et al.), 246
French Canadians
genetic studies of (Laberge), 52
Fungal disease
secondary aspergillosis (Heffernan & Asper), 10

Gastric ulcer (Gieske & Storey), 499
Genetics
accelerated growth (Money & Lewis), 365
EMG carriers of Duchenne muscular dystrophy (Emery et al.), 439
IQ and adrenogenital syndrome (Money & Lewis), 365
studies of French Canadians (Laberge), 52
Gilman lecture (Heckscher), 326

Heart
A-V communis defect in E_1 trisomy (Scarpa & Borgaonkar), 395
cardiac deficiency (Scarpa & Borgaonkar), 395
cardiac malformations (Scarpa & Borgaonkar), 395
congenital cardiovascular malformations (Mehrizi et al.), 216
D_1 trisomy syndrome (Lee et al.), 374
E_1 (17-18) trisomy (Scarpa & Borgaonkar), 395
EKG changes in Asiatic cholera (Carpenter et al.), 197
muscle cell number in children (Cheek et al.), 140
Hemoperitoneum (CPC), 423
Hepatitis
in congenital rubella (Hardy et al.), 97
Hepatotoxins
insidious fungal disease (Heffernan & Asper), 10
Herring bodies
electron microscopic study of neurosecretory product (Bodian), 282
neuro-apocrine secretion in monkey (Bodian), 282
Histoplasmosis (CPC), 73
Human tissues
soluble esterases in (Blanco & Zinkham), 27
Hypersensitivity
to penicillin and cephalothin (drug letter), 351
Hypertension
malignant (drug letter), 349
Hyperthyroidism
intelligence quotient and school performance in 22 children with history of thyrotoxicosis (Money et al.), 275
Hypokalemia
in Asiatic cholera (Carpenter et al.), 197
Hypophysectomy
effect of copper, manganese and zinc (Cheek et al.), 337

Immunoglobulins, serum
in newborn premature infants (Washburn), 40
Immunologically competent cells (Santos & Owens), 109
Infants
serum immunoglobulins in premature newborn (Washburn), 40
ulcer in (Gieske & Storey), 499
Instrument, diagnostic
pinwheel (Ray), 261
Intelligence quotient
accelerated growth (Money & Lewis), 365
adrenogenital syndrome (Money & Lewis), 365
and school performance in children with history of thyrotoxicosis (Money et al.), 275
Intestine
infarction (CPC), 251
Intravenous fluid therapy
in Asiatic cholera (Carpenter et al.), 174, 197
Isozymes
soluble esterases in human tissues (Blanco & Zinkham), 27

Kidney disease
renal failure in Asiatic cholera (Carpenter et al.), 165, 174

Leukemia
fungal disease in (Heffernan & Asper), 10
Lipogranulomas (Boitnott & Margolis), 414
Lipoma
sacroiliac (Singewald), 492
Liver
cell, effect of copper, manganese and zinc on (Cheek et al.), 337
growth, effect of copper, manganese and zinc on (Cheek et al.), 337
Lupus erythematosus, disseminated (CPC), 423

Malformations
cardiovascular, congenital (Mehrizi et al.), 246
Manganese
muscle cell growth (Cheek et al.), 337
Mediastinitis
chronic fibrous (CPC), 73
Meningoencephalitis
in congenital rubella (Hardy et al.), 97
Mineral oil
hydrocarbons, saturated (Boitnott & Margolis), 402
in human tissues (Boitnott & Margolis), 402, 414
lipogranulomas (Boitnott & Margolis), 414

lymph nodes: oil droplets (Boitnott & Margolis), 414
petrolatum, liquid (Boitnott & Margolis), 414
thin-layer chromatography (Boitnott & Margolis), 402
Mithramycin
treatment of embryonal carcinoma (Koons et al.), 462
Motility
of esophagus (Kantrowitz et al.), 476
response to anticholinergics (Kantrowitz et al.), 476
response to atropine (Kantrowitz et al.), 476
Mouse spleen (Santos & Owens), 109
Muscle cell number
in children with congenital heart disease (Cheek et al.), 140

Neurology
diagnostic pinwheel (Ray), 261
Neutron activation and manganese
in thyroid and pituitary insufficiency (Cheek et al.), 337
Neuro-apocrine secretion
in the monkey (Bodian), 282
Non-cholera
clinical and biochemical comparison with cholera (Carpenter et al.), 230
Nucleus, facial
including Bell's palsy (Altman), 265
Number, muscle cells
in children with congenital heart disease (Cheek et al.), 140

Ocular defects
in rubella, maternal (Hardy et al.), 97
Ontogeny
characterization and chemical properties (Blanco & Zinkham), 27
Oral hypoglycemia
in treatment of diabetes mellitus (drug letter), 151

Pain
low back (Singewald), 492
sacro-iliac lipomata (Singewald), 492
Pancreas
carcinoma (CPC), 354
Paralysis
Bell's palsy (Altman), 265
facial (Altman), 265
Penicillin hypersensitivity
allergic reaction to cephalothin in patient (drug letter), 351
Pharmacologic response
of esophageal smooth and striated muscle (Kantrowitz et al.), 476
Physical examination
sensory pinwheel (Ray), 261
Pituitary insufficiency
effect of copper, manganese and zinc (Cheek et al.), 337
Pneumonia, lipoid (Boitnott & Margolis), 402
Pneumonitis
in congenital rubella (Hardy et al.), 97
Premature infants
serum immunoglobulins in newborn (Washburn), 40
Prostate
periprostatic abscess (CPC), 507
Pulmonary disease
due to aspergillosis (Heffernan & Asper), 10

Quantitative studies of antibody production of immunologically competent cells by various murine tissues after transplantation to the mouse (Santos & Owens), 127
Renal failure
in inadequately treated cholera (Carpenter et al.), 165, 174
Rubella, virus
congenital studies (Monif et al.), 85
(Hardy et al.), 97
Rubella, congenital
clinical findings (Hardy et al.), 97
epidemiology (Monif et al.), 85
hepatitis in (Hardy et al.), 97
infectivity of infants with (Hardy et al.), 97
meningoencephalitis in (Hardy et al.), 97
pneumonitis in (Hardy et al.), 97
Rubella, maternal
auditory defects (Hardy et al.), 97
cardiac defects (Hardy et al.), 97
congenital malformations following (Monif et al.), 85
fetal outcome (Monif et al.), 85
fetal wastage (Monif et al.), 85
isolation of rubella virus from infants (Monif et al.), 85
ocular defects (Hardy et al.), 97
preconception rubella (Hardy et al.), 97

Sacroiliac
lipoma (Singewald), 492
Septicemia (CPC), 507
Serum immunoglobulins
in newborn premature infants (Washburn), 40
Shigellosis
electron microscopy (Gonzalez-Licea & Yardley), 444
Shock
basis for shock in cholera compared to that produced by non-cholera diarrhea (Carpenter et al.), 230
Spine, disorders of
spondylolisthesis (King), 2
Spondylolisthesis
experiences with (King), 2
Steroid therapy
complicated by aspergillosis (Heffernan & Asper), 10
Sulfonylurea therapy
long term (drug letter), 154
Syndrome
adrenogenital (Money & Lewis), 365

Tetracycline
treatment of cholera (Carpenter et al.), 216
Therapy
antibiotic treatment of Asiatic cholera (Carpenter et al.), 216
Thyroid
ablation, effect of copper, manganese and zinc (Cheek et al.), 338
hyperthyroidism (Money et al.), 273
insufficiency effect of copper, manganese and zinc (Cheek et al.), 338
intelligence in children with thyrotoxicosis (Money et al.), 275
IQ and school performance in 22 children with history of thyrotoxicosis (Money et al.), 273
school performance and IQ performance (Money et al.), 273
Thrombosis
mesenteric artery (CPC), 251
Thyrotoxicosis
in school children (Money et al.), 275
Tolbutamide
oral hypoglycemia agent (drug letter), 152
Trachea
congenital cardiovascular malformations associated with esophageal fistula (Mehrizi et al.), 246
Therapy
antibiotic, complicated by aspergillosis (Heffernan & Asper), 10
cytotoxic drug, complicated by aspergillosis (Heffernan & Asper), 10
steroid, complicated by aspergillosis (Heffernan & Asper), 10
Transplantation
of antibody producing cells in the mouse (Santos & Owens), 109, 127
Trisomy D_1
three subjects with unequally advancing development (Lee et al.), 374
E_1
A-V communis defect in (Scarpa & Borgaonkar), 395

Ulcer
duodenal (Gieske & Storey), 499
gastric (Gieske & Storey), 499
stress (Gieske & Storey), 499
Ulcerative colitis
electron microscopy (Gonzalez-Licea & Yardley), 444
Virus, rubella congenital
studies in (Monif et al.), 85
(Hardy et al.), 97

Zinc
muscle cell growth (Cheek et al.), 337
